

K-Love keeps me company on the way to and from work. It blesses me every day, lots of days what I hear on this station helps me get through my day.

I think that our community would sadly feel the effects of losing K-Love if it were replaced by LPFM stations. It has helped many people with important decisions that they had to make in their life.

You would be surprised to hear how many people has decided not to take their life because of listening to a word from God's word or a song written about God and His love, or a young person who decided to stop using drugs because of the same reason.

I believe that a lot of bad things would happen in our community because the word or song sung of God's love was not going out over the airwaves from K-love for that ONE person who really needed to hear it.

K-Love is one of the best stations around in this area, in my opinion it is the best station because they are on 24 hrs a day, they are commercial free and if I need it they pray for me. That gives me a lot of comfort.
